About the Paperlike Digital Planner
This planner is comprised of four different page types: Year, Month, Week, and Day.

It can be imported to GoodNotes, Notability, Noteshelf, and any other digital planning app that imports PDF files.

Navigating Within Your App
This planner uses PDF links to help you navigate and stay organized.

If this is your first time using a digital planner with a notetaking app, keep in mind that the app is likely to have an “edit mode” and a “read-only mode.”

In order to navigate using links, most apps will require you to switch to “read-only mode.”

If you’re having trouble using links, be sure to double-check your app settings.

The Year Page displays all months and days. Tap on the name of any month to navigate to the corresponding Month Page.
